

Senior CAPEX Project Manager (w/m/d)

für den Standort Regensburg, Deutschland

Would you like to make a valuable contribution to the health of patients? And do something really meaningful on your own responsibility? Then we look forward to hearing from you! Excellence beyond manufacturing - that's what we stand for as Aenova, one of the world's leading contract manufacturers and developers for the pharmaceutical industry with 4,000 employees at 15 sites. Our site in Regensburg is a competence center for high potent solids, e.g. cancer medicines.

Your key responsibilities

- Responsible for monitoring and delivery of CAPEX projects for mainly our site in Regensburg
- Helping to improve and further develop project standards, tools and processes
- Creating and scheduling of project plans that will meet the project's objectives through the Engineering, Design, Construction, Commissioning and Qualification phases
- Define scope of work and deliverables together with the relevant project sponsor / E2E Lead to support business objectives in collaboration with senior management and stakeholders
- Clarifying roles and responsibilities within the project organization and developing full-scale project plans and associated project governance on site
- Establishing the project team, structure and functions necessary to reach the project goals and ensures appropriate coaching/development/performance
- Transparent communication within the project organization and at interfaces and with stakeholders; mediating and hands-on in case of problems
- Reporting regularly, including project progress reports, to ensure that it's on track and identify any potential issuesSupport and optimization of existing systems

Your profile

- Degree or equivalent in Engineering or related science discipline with relevant experience in CAPEX projects
- Extensive experience in the design, construction, and qualification of medium to large cGMP pharmaceutical facilities, with at least one major Greenfield project successfully completed
- Proven ability to manage multiple priorities to oversee scope, schedule, and budget, ensuring quality and safety standards are met and project issues are resolved efficiently
- Experienced in coordinating and managing internal teams, consultants, vendors, and contractors
- Solid understanding of design principles and standards specific to pharmaceutical facilities, with the ability to assess plant issues and develop effective solutions
- Highly motivated, independent, and driven, with strong decision-making and communication skills
- Fluent in English; German is a plus

Your motivation

Are you looking for new challenges in a highly competitive environment? And you want to tackle them creatively and on your own responsibility? Do you prefer a "get-it-done" culture and think in terms of solutions rather than problems? What are you waiting for? We

would be happy to explain our corporate benefits in a personal conversation!
