

## Planning Manager

for the site Borgo San Michele LT, Italy

Would you like to make a valuable contribution to the health of patients? And do something really meaningful on your own responsibility? Then we look forward to hearing from you! Excellence beyond manufacturing - that's what we stand for as Aenova, one of the world's leading contract manufacturers and developers for the pharmaceutical industry with 4,000 employees at 15 sites. Latina is a leading centre of excellence in sterile liquid production, with a strategic investment plan to become one of Europe's foremost hubs.

### Your key responsibilities

- Manage the planning processes, from settling production plans during the budget phase to the launch into production
- Manage the supply process for direct components and components ordered by customers
- Supervise the E2E products trend, from the input of raw materials to the shipment of final products
- Guarantee middle and long-term production plans, balancing production needs with customer orders
- Analyse production plans and its positive outcomes and risks; settling risks resolution plans, communicate changes to internal and external stakeholders (customers, suppliers, colleagues)
- Guarantee appropriate management of direct materials purchased for the plant, of raw materials supplied by customers both for production and projects
- Ensure a correct stock of components for the company production department, to reach plant targets
- Ensure that production capacity is always maximised and the output targets are aligned with budget
- Communicate forecasted change in production plans (collect data, analysis, reporting)

### Your profile

- **Background:** Degree in technical fields (engineering, economy...)
- **Production Planning Expertise:** Proven experience in mid- to long-term (9–12 months) manufacturing planning, ideally in a sterile pharmaceutical or GMP/Quality-regulated environment
- **Forecast Translation:** Ability to translate customer forecasts into executable production campaigns, balancing demand with capacity and resource (machine and labor) constraints
- **Capacity Planning & MPS:** Skilled in using a Master Production Scheduling (MPS) tool to assess and align production capacity with demand
- **SAP ECC & MRP Proficiency:** Hands-on experience with SAP ECC, including MRP processes, production orders, and material availability checks
- **Scheduling & Execution:** Experience in creating detailed production line schedules and ensuring alignment with shop floor execution
- **Data Analysis & Reporting:** Proficient in Power BI or similar tools for monitoring KPIs, production performance, and material availability
- **Procurement:** ideally has experience or understanding in procurement processes and their constraints, inventory target setting and risk mitigation in the material supply area
- **Language Skills:** Fluent in Italian; good command of English (written and spoken) for communication with international stakeholders
- **Cross-Functional Collaboration:** Strong communication and coordination skills to work closely with procurement,

warehouse, quality, master data, and customer service teams

- **Problem Solving & Agility:** Capable of identifying bottlenecks, proposing solutions, and adapting plans in response to material delays, quality issues, or customer changes

## Your motivation

Are you looking for new challenges in a highly competitive environment? And you want to tackle them creatively and on your own responsibility? Do you prefer a "get-it-done" culture and think in terms of solutions rather than problems? What are you waiting for? We would be happy to explain our corporate benefits in a personal conversation!
