

## Continuous Improvement Specialist

for the site Borgo San Michele LT, Italy

Would you like to make a valuable contribution to the health of patients? And do something really meaningful on your own responsibility? Then we look forward to hearing from you! Excellence beyond manufacturing - that's what we stand for as Aenova, one of the world's leading contract manufacturers and developers for the pharmaceutical industry with 4,000 employees at 15 sites. Latina is a leading centre of excellence in sterile liquid production, with a strategic investment plan to become one of Europe's foremost hubs.

### Your key responsibilities

- Identifying inefficiencies, non-value-added activities, and improvement areas through data analysis and on-site observations.
- Designing and executing improvement actions focused on Safety, Quality, Cost, and Efficiency across different business functions.
- Actively scouting for and proposing new initiatives aligned with strategic and operational goals.
- Creating, updating, and ensuring adherence to standardized work processes and procedures.
- Applying Lean tools such as VSM, 5S, Visual Management, SMED, Root Cause Analysis, to support process optimization and performance tracking.
- Measuring the effectiveness of improvement activities using Key Performance Indicators like OEE, productivity, quality metrics.
- Coordinating and tracking the execution of the Continuous Improvement plan, including periodic reviews and internal audits.
- Acting as a mentor to team members, promoting a culture of Continuous Improvement by transferring knowledge and developing problem-solving capabilities.
- Operates with moderate supervision, focused on specific processes or departments within the organization. may support knowledge sharing in small groups or teams.

### Your profile

- Bachelor's or Master's degree in Engineering, Industrial Management, Life Sciences, or related technical field.
- 3 to 4 years of experience, preferably in the pharmaceutical field or other regulated area, in the implementation of improvement programs and projects (Lean, Six-Sigma, Kaizen).
- Proven knowledge of Lean Manufacturing principles and Continuous Improvement methodologies (e.g., 5S, VSM, Kaizen, Standard Work, Visual Management).
- Lean Six Sigma Green Belt / Yellow Belt certification
- Fluent in English, written and spoken

### Your motivation

Are you looking for new challenges in a highly competitive environment? And you want to tackle them creatively and on your own responsibility? Do you prefer a "get-it-done" culture and think in terms of solutions rather than problems? What are you waiting for? We would be happy to explain our corporate benefits in a personal conversation!
