

## Working Student Artificial Intelligence, AI (m/w/d)

for the site Starnberg (Percha), Germany

Would you like to make a valuable contribution to the health of patients? And do something really meaningful on your own responsibility? Then we look forward to hearing from you! Excellence beyond manufacturing - that's what we stand for as Aenova, one of the world's leading contract manufacturers and developers for the pharmaceutical industry with 4,000 employees at 15 sites. Our site in Starnberg is the headquarters of the Aenova Group.

### Your key responsibilities

- Provide first-level support and guidance to employees using the internal AI solution (ChatGPT)
- Configure and maintain AI agents, customize data integrations, and manage access to internal documents and knowledge sources
- Support the integration of AI applications into existing business processes in collaboration with cross-functional teams
- Assist in training sessions and onboarding activities to enable employees to work efficiently with AI tools
- Troubleshoot common technical and user-related issues to ensure stable and reliable operation
- Create, maintain, and improve documentation, user guides, and training materials

### Your profile

- Currently enrolled in a Bachelor's or Master's program in Computer Science, Data Science, Artificial Intelligence, or a related technical field
- Good understanding of artificial intelligence concepts, AI tools, and data platforms
- Familiarity with data integration methods and APIs for connecting different data sources
- Analytical and curious mindset with the ability to understand AI-related challenges at a conceptual level
- Solution-oriented and pragmatic approach with a strong willingness to learn
- Proactive attitude and interest in exploring new AI tools and technologies
- Personally, you are a team player, able to work under pressure, work independently and have very good communication skills.
- You have good German and very good English skills

### Your motivation

Are you looking for new challenges in a highly competitive environment? And you want to tackle them creatively and on your own responsibility? Do you prefer a "get-it-done" culture and think in terms of solutions rather than problems? What are you waiting for? We would be happy to explain our corporate benefits in a personal conversation!
