

Reliability Engineer

for the site Borgo San Michele LT, Italy

Would you like to make a valuable contribution to the health of patients? And do something really meaningful on your own responsibility? Then we look forward to hearing from you! Excellence beyond manufacturing - that's what we stand for as Aenova, one of the world's leading contract manufacturers and developers for the pharmaceutical industry with 4,000 employees at 15 sites. Latina is a leading centre of excellence in sterile liquid production, with a strategic investment plan to become one of Europe's foremost hubs.

Your key responsibilities

- Develop and implement TPM programs to ensure equipment reliability.
- Root Cause Analysis to identify and resolve equipment failures and chronic issues.
- Collaborate with multi-functional teams to drive continuous improvement initiatives and optimize maintenance processes.
- Analyze performance data to identify trends, predict failures and develop proactive maintenance strategies.
- Provide technical support and training to maintenance and production staff on TPM tools.
- Lead and participate in TPM workshops, kaizen events, and other continuous improvement activities.
- Develop and maintain documentation, including One Point Lessons, Work Instructions and maintenance plans, based on failure data.
- Monitor and report on key performance indicators (critical metrics i.e. MMTR, MTBF, UPDT,) related to equipment reliability and maintenance effectiveness.
- Full CMMS management: configuration, SOP, data update, activities planning and scheduling, asset creation/decommissioning
- Spare parts warehouse management

Your profile

- University degree in Industrial Engineering (Chemical, Process, Mechanical).
- Minimum of 2 years of experience in a reliability engineering or maintenance role, preferably within a pharmaceutical manufacturing environment.
- Knowledge of Total Productive Maintenance (TPM) methodologies.
- Proficiency in using maintenance management software and data analysis tools (EAM preferred, but any other CMMS is fine).
- Knowledge of safety, health, and environmental regulations related to maintenance activities.
- Working knowledge of Good Manufacturing Procedures (GMP).
- Italian fluent and good knowledge of English (Level B1/B2).

Your motivation

Are you looking for new challenges in a highly competitive environment? And you want to tackle them creatively and on your own responsibility? Do you prefer a "get-it-done" culture and think in terms of solutions rather than problems? What are you waiting for? We would be happy to explain our corporate benefits in a personal conversation!
