

Production Supervisor

for the site Borgo San Michele LT, Italy

Would you like to make a valuable contribution to the health of patients? And do something really meaningful on your own responsibility? Then we look forward to hearing from you! Excellence beyond manufacturing - that's what we stand for as Aenova, one of the world's leading contract manufacturers and developers for the pharmaceutical industry with 4,000 employees at 15 sites. Latina is a leading centre of excellence in sterile liquid production, with a strategic investment plan to become one of Europe's foremost hubs.

Your key responsibilities

- To grant the correct execution of the department Tiers.
- To verify the feasibility of mid-term production plans with respect to available resources and market priorities. Also, to share any differences with the manager of the unit.
- Coordination with the Technical Assistance Unit, in order to grant the correct action time on the machines and reduce downtime.
- To support the section manager and the colleagues involved, in reviewing operational procedures, "DVR" and budget plans.
- To suggest innovative solutions to improve productive processes and reduce costs.
- Constantly and regularly, to communicate with the operational personnel with the aim to transfer information and respond to necessities or suggestions of improvement.
- To ensure that personnel respects EHS and GMP regulations.
- To participate actively as SME to regulatory and customer inspections.
- To assure the opening of deviations in case of anomalies compared to flows and processes.
- To promote/participate to the definition of change plan and CAPA plan for the own area of competence.
- Participate proactively to projects that impact on the own area of competence taking part on team projects.
- Ensure that the documentation for Batch Record (supporting validation protocols) is implemented correctly and delivered within the set time frame.
- To define training plan for employees and guarantee that the personnel is trained on procedures and that have the technical education of the various work centre to which it is assigned.
- To ensure the definition of standard of machine and labour hour for the products of own areas of competence according with the section manager.

Your profile

- University degree in technical subjects preferred (Engineering, Chemistry, Pharmaceutical Chemistry, etc.).
- 3-5 years of People management experience.
- Good knowledge of GMP.
- Good knowledge of Oral Solid Dosage form.
- Good knowledge of English both written and spoken.
- Excellent knowledge of Office.
- Good knowledge of SAP system.
- Lean Six Sigma certification is a plus.
- Strong analytical approach with a high level of accuracy and attention to detail.

- Strong problem-solving and organizational skills.
- Ability to manage multiple priorities and work effectively under tight deadlines.
- Proactive mindset with a continuous improvement approach.

Your motivation

Are you looking for new challenges in a highly competitive environment? And you want to tackle them creatively and on your own responsibility? Do you prefer a "get-it-done" culture and think in terms of solutions rather than problems? What are you waiting for? We would be happy to explain our corporate benefits in a personal conversation!
