

Security Operations Analyst (w/m/d)

for the site Starnberg (Percha), Germany

Would you like to make a valuable contribution to the health of patients? And do something really meaningful on your own responsibility? Then we look forward to hearing from you! Excellence beyond manufacturing - that's what we stand for as Aenova, one of the world's leading contract manufacturers and developers for the pharmaceutical industry with 4,000 employees at 15 sites. Our site in Starnberg is the headquarters of the Aenova Group.

Your key responsibilities

As a Security Operations Analyst at Aenova you will operate at the interface between our internal IT teams and our external Managed SOC partner. You ensure that alerts, vulnerabilities, and incidents are investigated, prioritized and resolved effectively.

You will combine hands-on security expertise with strong stakeholder coordination. Your insights into daily security challenges enable you to take initiative and drive structural improvements to our overall security posture.

- Own the operational interface with our external managed SOC partner
- Operate and continuously improve SIEM, EDR/XDR and related detection capabilities
- Operate vulnerability-scanning processes and validate security findings across the IT environment
- Prioritize vulnerabilities based on technical severity, exploitability, exposure, asset criticality and business impact
- Drive and oversee remediation activities together with IT staff, application owners and service providers
- Lead incident triage and coordinate containment, remediation and recovery activities
- Participate in an on-call rotation and provide hands-on support during security incidents and critical zero-day vulnerabilities

Your profile

- Degree in Information Technology, Computer Science or a comparable field
- Several years of professional experience in Security Operations
- Practical experience operating SIEM and EDR/XDR platforms
- Experience in vulnerability management, including risk assessment and remediation control review
- Confident and assertive communication skills when engaging with technical teams, business stakeholders and external service providers
- Strong sense of ownership, attention to detail and persistence in driving security actions to closure
- Fluent written and spoken German and English skills (C1 level or above)

This position follows a hybrid model of three days per week on-site at our Starnberg office and two days remote (flexible), and requires occasional on□call availability

Your motivation

Are you looking for new challenges in a highly competitive environment? And you want to tackle them creatively and on your own responsibility? Do you prefer a "get-it-done" culture and think in terms of solutions rather than problems? What are you waiting for? We would be happy to explain our corporate benefits in a personal conversation!
