

Production Planner

for the site Borgo San Michele LT, Italy

Would you like to make a valuable contribution to the health of patients? And do something really meaningful on your own responsibility? Then we look forward to hearing from you! Excellence beyond manufacturing - that's what we stand for as Aenova, one of the world's leading contract manufacturers and developers for the pharmaceutical industry with 4,000 employees at 15 sites. Latina is a leading centre of excellence in sterile liquid production, with a strategic investment plan to become one of Europe's foremost hubs.

Your key responsibilities

- To define a reliable production planning and scheduling of the proper production lines through the analysis of the customer demand and the capacity production lines
- To control the availability of the materials for assuring the production continuity of the shop floor through the definition of the priorities to the Quality Control for the release
- To assure the periodical revision of required planning parameters for keeping the inventory level as low as possible on the semi-finished, raw and packaging materials
- To manage the change of packaging materials for being in compliance with the regulatory requirements and minimizing the related write-off cost
- To assure on time responsiveness to the customer requests
- To support the Planning and Logistics Manager in leading the Sales and Operations Planning process through the analysis of the demand, the capacity loading and the definition of the shift strategy for the proper production lines
- To keep track of weekly and monthly Planning KPI
- To maintain Planning Parameters for materials code in SAP
- To report the outcome of the execution of the planning highlighting root-causes and possible action plan to recover
- Fine scheduling on the proper manufacturing and packaging lines
- To collaborate with the Customer Service for order prioritization and production delays management

Your profile

- University degree in Engineering or Economics
- 2 years + production planning experience (pharmaceutical industry preferred)
- Good data analysis and reporting skills
- Good knowledge of Microsoft Office (Advanced Excel)
- Experience in MRP/ERP system (SAP preferred)
- Excellent knowledge of Power BI tools (queries and analysis result)
- In depth knowledge of the supply chain process (APICS certification preferred)
- Excellent problem-solving skills and a logical way of thinking
- Fluency in English
- Team-working player
- Proactive attitude for improving innovation and challenging the status quo
- Good communication skills and relationship attitude

Your motivation

Are you looking for new challenges in a highly competitive environment? And you want to tackle them creatively and on your own responsibility? Do you prefer a "get-it-done" culture and think in terms of solutions rather than problems? What are you waiting for? We would be happy to explain our corporate benefits in a personal conversation!
