

## Engineering & HSE Director

for the site Borgo San Michele LT, Italy

Would you like to make a valuable contribution to the health of patients? And do something really meaningful on your own responsibility? Then we look forward to hearing from you! Excellence beyond manufacturing - that's what we stand for as Aenova, one of the world's leading contract manufacturers and developers for the pharmaceutical industry with 4,000 employees at 15 sites. Latina is a leading centre of excellence in sterile liquid production, with a strategic investment plan to become one of Europe's foremost hubs.

### Your key responsibilities

- Manage and organize the Engineering & Maintenance department, including plant budget and investment management.
- Coordinate project implementation activities for new departments and modifications of existing areas by supporting all the phases of the project (from conceptual to detailed design, URS in compliance with current legislation, GMPs and company EHS criteria).
- Ensure implementation of sustainable programs to oversee the site general maintenance (equipment, utilities, buildings & facilities), with continuous improvement and applying GEP.
- Ensure monitoring of the site supplies (electricity, gas, water, etc), in compliance with the certifications, Authorities' requirements, energy savings and digitalization.
- Responsible for the implementation of a program for corrective, preventive and predictive maintenance of production machines, GMP utilities and supporting supply.
- Supervise and manage general services, with or without external companies' support.
- Ensure the Capital Master Plan definition, execution, control and maintenance.

### Your profile

- Engineering degree.
- 10-15 years of experience in managerial roles in either Maintenance area, Engineering and Equipment Qualification applied to pharmaceutical equipment and infrastructures (e.g., ISPE guidelines, GEP).
- Extensive Technical know-how about most updated technology in heating and cooling systems, sterile equipment and OSD manufacturing equipment.
- Experience with brownfield/greenfield expansion projects, possibly in sterile manufacturing.
- Knowledge of environmental, health and safety local, regional and national laws and regulatory.
- Experience with application of Lean methodology (Six Sigma, TPM, 5S).
- CDMO pharma manufacturing is a plus.
- Fluent in English and Italian.

### Your motivation

Are you looking for new challenges in a highly competitive environment? And you want to tackle them creatively and on your own responsibility? Do you prefer a "get-it-done" culture and think in terms of solutions rather than problems? What are you waiting for? We would be happy to explain our corporate benefits in a personal conversation!
