

Development Manager for Spray Dried Amorphous Solid Dispersions (m/f/d)

for the site Killorglin, Ireland

Would you like to make a valuable contribution to the health of patients? And do something really meaningful on your own responsibility? Then we look forward to hearing from you! Excellence beyond manufacturing - that's what we stand for as Aenova, one of the world's leading contract manufacturers and developers for the pharmaceutical industry with 4,000 employees at 15 sites. Our site in Killorglin is a competence center for hard capsules.

Your key responsibilities

- Development and implementation of innovative drug delivery platforms for spray-dried amorphous solid dispersions (SDASDs) for poorly soluble compounds.
- Cross-functional coordination of all implementation activities.
- Lead and coordinate the design and implementation of development standards for SDASDs.
- Design, development, and optimisation of SDASD formulations for poorly soluble compounds, utilising expertise in spray drying technology.
- Manage drug development projects, including timeline, milestone, and budget management.
- Work closely with cross-functional teams in the Aenova group, including analytical development, integration of the manufacture of SDASD and downstream processing within the group portfolio.
- Provide support and technical guidance to the formulation team, including troubleshooting and implementing innovative solutions.
- Follow and evaluate emerging development trends and advancements in SDASD technology and drug delivery.

Your profile

- PhD or MSc degree in Pharmaceutical Sciences, Chemistry, Chemical Engineering, or related field.
- Experience in pharmaceutical formulation development, with a focus on amorphous solid dispersion.
- Proven track record of successfully leading and managing drug development projects.
- Strong understanding of spray drying principles, solid-state characterization techniques, and formulation optimization strategies.
- Excellent project management skills.
- Strong communication and leadership skills, with the ability to collaborate effectively across interdisciplinary teams

Your motivation

Are you looking for new challenges in a highly competitive environment? And you want to tackle them creatively and on your own responsibility? Do you prefer a "get-it-done" culture and think in terms of solutions rather than problems? What are you waiting for? We would be happy to explain our corporate benefits in a personal conversation!
